

## MASTERCALL LED COLLABORATION WITH DIGITAL PARTNERS ADVANCED & DIGNIO SECURE FUNDING AWARD ENABLING INTEROPERABILITY BETWEEN CORE SYSTEMS

Mastercall are delighted to announce that it has recently been awarded PODAC funding. The national Digital PODAC programme NHS Digital and NHSX are developing is to improve digitisation and productivity using digital technology across pharmacy, optometry, dentistry, ambulance, and community (PODAC) sectors.

We are thrilled to be working closely with our digital partners at Advanced and Dignio to streamline our remote monitoring service and enhance clinical efficiency for our patients.

Here's what Jonathan Ritchie, our Director of IT & Digital Innovation / CIO had to say, along with our friends at Dignio & Advanced.

We are delighted be awarded PODAC funding from the NHSX team – this will interop two of our core healthcare solutions working with Advanced and DIGNIO and ensure a streamlined approach to remote monitoring, enhancing clinical efficiency to support our patients via an innovative collaborative approach working with our digital partners

**Jonathan Ritchie,**  
Director of IT & Digital Innovation / CIO, Mastercall Healthcare

Dignio UK are delighted to receive the NHSx funding to help us optimise the interaction between our mature, assured solution and the wider ecosystem. Integration with Adastra will help Dignio further improve the experience of frontline clinical care staff using our solution. Digital transformation is only ever effective if it helps those at the heart of it- the colleagues delivering clinical care and their patients.

**Ewa G Truchanowicz,**  
PhD, FRSA Dignio UK Managing Director

Enabling interoperability between Advanced's Adastra solution and complementary technologies such as Dignio is key to our strategy to digitise the flow of patient information through urgent care systems to improve patient safety and reduce the administrative burden on clinicians. We are delighted to be once again working with Mastercall on such an innovative development.

**Alistair Eaton,**  
Vice President, Health & Care at Advanced

Thank you to the team at NHSX for their support and belief as we continue to transform our digital healthcare delivery to our patients.
